SAFETY INFORMATION

ON

Bradford Derustit pH TEST KITS

Bradford Derustit test papers and strips are classified as articles under OSHA* regulations. Bradford Derustit test papers / strips do not require formal material safety data sheets or certificates of analysis (under OSHA standard – “hazardous communications” – 29 cfr 1910.1200). They are safe for shipment by air, sea or ground transportation.

Our test papers / strips consist of indicator dyes that have been impregnated into paper. These papers / strips are to be used in vitro only and not to be used internally. The concentration of impregnated dye is small.

Bradford Derustit test papers / strips consist of stable, non-reactive materials. They are non-volatile and not radioactive. Bradford Derustit test papers / strips and their components do not contain latex, mercury, DEHP or lead. These papers can be discarded according to local environmental waste procedures and regulations.

Bradford Derustit pH test papers have a shelf life of 3 years and should be stored in dry protected from sunlight.
